Pat Taylor

Executive Director with Blue Cross and Blue Shield Association's Enterprise Architecture team

Having served at Blue Cross and Blue Shield of Alabama for several years, Pat brought a depth of Plan knowledge to the Association. She has an ability to work across the BCBS system to deliver new capabilities making use of the National Data Warehouse, a Value Based Programs Delivery Platform and the Master Member Identifier. A case study of BCBSA's member matching approach was published by the [Sequoia Project](#).

She is currently BCBSA's architecture lead for several Data Strategy, Interoperability and Government Market initiatives. She is co-author of the [CARIN IG for Blue Button®](#), the HL7 FHIR Implementation Guide that meets CMS requirements to provide Claims and Encounter data directed by CMS's [Interoperability and Patient Access Final Rule](#) on patient access to health data.

Pat holds a Bachelor of Science degree in Mathematics from the University of Nebraska - Kearney and a Master of Business Administration from the University of Alabama.
