## Webinar Series

**Tuesday, June 20 - 12:00 PM**

Webinar - Re-thinking Design Thinking in Healthcare

Design Thinking has been a presence in healthcare since the late 1990s with the work of IDEO and Kaiser Permanente crafting the patient experience. Since that time, there has been much great design work done in healthcare yet the EHR is still poorly accepted by physicians, and clinical staff. This webinar will explore the ways that, using Design Thinking, the EHR experience can be re-crafted to result in not only an improved user experience for physicians, clinical staff, and patients, but also ultimately a more efficient and healthy organization.
