

Bio:

Chase Tinius is the manager of Healthcare Informatics at Via Christi Health in Wichita, Kansas. He began his career as a Registered Nurse specializing in cardiac bypass care, and then as a heart catheterization specialist. Chase has spent the last four years in informatics, where he helped lead in the health system's conversion to an integrated electronic medical record and build on the informatics discipline. Chase's passion within informatics focuses on business intelligence and analytics. Outside of work, Chase loves to spend his time cycling, writing and playing music, spending time with his wife and four children.
