

Todd F. Richardson is the Senior Vice President/Chief Information Officer at Aspirus, where he has served in this capacity since September of 2012. Prior to joining Aspirus, Mr. Richardson was the CIO at Deaconess Health System in Evansville, Indiana. While at Deaconess, Mr. Richardson led the organizations enterprise rollout of the Epic E.H.R. and recognition as a HIMSS Analytics Stage 7 facility, as well as one of Modern Healthcare's Most Wired facilities. Previous to joining Deaconess, Mr. Richardson has served as the Vice-President of IS for both CHRISTUS St. Vincent's hospital in Santa Fe, New Mexico as well as with Wheaton Franciscan Healthcare in Waterloo, Iowa. In these capacities, he had direct responsibility for the implementation of the Cerner and McKesson Electronic Health Records. Mr. Richardson has been active at the state and national level in advocacy efforts around healthcare IT, through his professional memberships in HIMSS and CHIME, and has received his CHCIO certification through CHIME. Mr. Richardson currently serves as the Chair for the Wisconsin Epic Users Group (WIEUG) and has served on the board for the New Mexico Health Information Exchange as well as on the management committee of the Indiana Network for Patient Care which is part of the Indiana Health Information Exchange.

**Merger & Acquisition Experience:**

Todd joined St. Vincent's in Santa Fe right after they were acquired by CHRISTUS Health and had the opportunity to lead the organization through the process. Since joining Aspirus, Todd's organization has acquired two organizations: a critical access hospital in Iron River, Michigan, and Riverview Hospital in Wisconsin Rapids, Wisconsin.
