Seating capacity is limited; Registrants will be vetted and must be approved to attend.

NH-ISAC has been awarded ONC* and ASPR* grants from HHS* to help improve cyber threat information sharing and cyber hygiene awareness within our Healthcare and Public Health community. **NH-ISAC** workshops are complimentary and can help increase the cyber situational awareness for organizations of all sizes within the healthcare sector, including the smaller organizations.

**Office of the National Coordinator for Health Information Technology (ONC,) Office of the Assistant Secretary for Preparedness and Response (ASPR,) U.S. Department of Health and Human Services (HHS)*

ENGAGE & INTERACT

WORKSHOP AGENDA

8:30 – 9:00 Registration and Networking

9:00 – 9:50 Cyber Threat Landscape

High level overview of the various cyber threats facing healthcare such as Ransomware, Phishing and DDoS and potential impacts to healthcare organizations

9:50 – 10:40 Importance of Information Sharing

The role of information sharing in helping protect healthcare organizations from potential threats through situational awareness and mitigation strategies. An overview of how organizations share with each other and with Government Agencies and why it is important illustrated by case studies of successful sharing

10:40 – 10:55 Break

10:55 – 12:00 NIST CSF Basic Best Practices in Cybersecurity

Basic cyber hygiene and best practices. A discussion of simple strategies that healthcare organizations can employ, such as Anti-virus, training and patching that will go a long way in protecting against cyber threats. The session will cover best practices within industry and will offer practical insights from cybersecurity practitioners

12:00 – 12:30 Wrap up and networking opportunity

***Agenda is subject to change**

NH-ISAC restricts attendance to its respective members, potential members and related industry interested parties.

NH-ISAC reserves the right to decline or cancel registrations that do not meet our criteria.
