CONNECT—LEARN—LEAD

The New Cyber Threat Landscape Educational Session

**Presented by: Phil Alexander
Director of Information Security & ISO at UMC Health System**

Please join us for an informative session regarding IT Security and the various threats seen in Healthcare. This free presentation is available to anyone so please invite any other professionals who would like to attend. During this event you will learn about:

- Why is Healthcare the number one target for cyber criminals, hackers, and nation states?
- What are the biggest gaps and threats?
- What can I do to help protect my organization and myself?
