

Strategic. Practical. All About [Healthcare] Security

The [HIMSS Healthcare Security Forum](#) is developed exclusively to guide today's healthcare security leaders as they face the challenge of enabling business goals and innovation, build and sustain security maturity, and vigilantly prepare for next generation security and consumerism. Walk away armed with critical information on security threats, new approaches to your toughest challenges, career-lasting connections, and an overview of industry-leading technologies designed to keep your organization and patients safer.

2019 Event Features

- **Exciting keynotes and sessions led by security experts from leading healthcare systems:**
Learn from security veterans on how to build a security program that keeps your organization safe, healthy and moving forward. Hear from leading healthcare security experts about their security programs, field-tested strategies to combat threats, how to engage your organization's business leaders to make security at top priority and more.
- **Breakout group discussions:**
Hear field-tested solutions and brainstorm new ideas during breakout discussions about ever-evolving, always-important blocking and tackling tactics:
 - Enterprise Risk Management & Information Sharing
 - Incident Response & Recovery
 - Vulnerability Management
 - Endpoint Protection
 - Identity and Access Management
 - Security Technology Trends
 - Data Protection & Loss Prevention
 - Email Protection & Awareness Training
 - Network and Application Security
- **Networking events:**
Take a seat next to your potential future ally in the war against cyber-attacks. Networking is a critical component of this two-day event from the ballroom set-up to breakfast, lunch and even an end of day reception. There's plenty of time built in to get to know your neighbor. Build lasting relationships with the healthcare security community. Build a network of top security pros you can count on to help solve ongoing security challenges, generate new ideas, and reach out to when you just need to talk to a like-minded colleague.
- **HIMSS Security Executive Roundtable:**
Senior security executives who are looking for an exclusive networking opportunity with other senior security executives are invited to the HIMSS Executive Security Roundtable dinner. This is an invite-only event. If you are a senior security executive and interested in attending, please contact Heather.Johnson@himssmedia.com for more information.
- **MarketConnect Security:**
Looking for new technologies, or how to get more out of your current infrastructure? Schedule a meeting a 1:1 meeting with one (or more) of our technology solution providers. Contact Victoria.Ryder@himssmedia.com for more information.

HIMSS Chapter Members receive \$200 off registration, use code: CHAPTER

The \$200 discount code is applicable to two-day general attendee registration fees only; it does not apply to one-day registration. No refund will be granted on already existing registrations.
