

Save the Date: ePatient Summit

Meet the (dis)Connected Patient

May 3, 2018

Robertson Hall @ UCSF Mission Bay

The ePatient Summit is HIMSS NorCal's annual clinically-focused conference.

This year's program will host a spectrum of industry leaders, experts, and patients analyzing the failed promises of connected patients and interoperability and what we can do to change the game.

It will be an interactive day where attendee participation isn't optional!

See you there!
